10 EXHIBITIONS TO SEE DURING FIAC 2016

Glass Works by Robert Wilson at Galerie Downtown

Robert Wilson © Marie-Clérin / Galerie Downtown-François Laffanour

Galerie Downtown presents a selection of Robert Wilson's glass works, which the artist developed over almost ten years from 1994 to 2003 at Marseille's Centre International de Recherche sur le Verre et les Arts Plastiques. Wilson is known for having influenced generations in various fields of art (beyond theatre, the discipline he is most known for), still his passion for glass and ceramics may not be underestimated. The exhibition is the perfect occasion to discover the artist's approach, his findings and groundbreaking results: in a field where nothing is left to chance, Robert Wilson manages to inject the vital element of freedom, and finds a balance that gave birth to the timeless glass works displayed in the spaces of the gallery. Glass Works from October 21 to November 6 at Galerie Downtown, 18 rue de Seine 75008 Paris / www.galeriedowntown.com
