Design Miami / 2016

For Design Miami / 2016, François Laffanour presents a selection of pieces realized for Chandigarh, in India.

Designed as an architecture of Le Corbusier, the exhibition space will bring together exceptional works by Pierre Jeanneret and Le Corbusier.

After TEFAF and Design Miami / Basel, it is the first time that François Laffanour devotes an entire exhibition to this furniture on this side of the Atlantic, also bringing together by pieces from Charlotte Perriand and Jean Prouvé.
