Design Miami: Vintage from France

Galerie Downtown showcases french furniture classics

Right now Design Miami kicks off and besides contemporary works you can also discover some vintage pieces, especially from France. The Galerie Downtown displays works by Jean Prouvé, Charlotte Perriand and Pierre Jeanneret in the most beautiful, reduced form. Since the 1980s, the owner François Laffanour has specialized in post-war design and the works of the architects – which are currently experiencing a real revival.

Pierre Jeanneret, theatre armchairs, 1960-61.
